

TARA LABS

ISM Onboard The One

The ultimate combination of RSC® and Onboard Shield™ technologies. Reveals more low-level ambient and spatial information. Vivid, lifelike sound within a large, expansive soundstage. Has an Isolated Shield Matrix® and Floating Ground Station® technologies within ISM Onboard Capsule™. RSC® SA-OF8N® copper conductors with a natural fiber core; PTFE dielectric throughout; Aero-PE® primary dielectric throughout and Anti-Corrosion coated copper shield.

- * RCA (Torque-Lock™) or XLR
- * Isolated Shield Matrix® and Floating Ground Station® technologies within ISM Onboard Capsule™

 - * Anti-Corrosion coated copper shield.
- * The ultimate combination of RSC® and Onboard Shield™ technologies.
 - * Reveals more low-level ambient and spatial information.
 - * Vivid

REVIEWS:

"I did quite a lot of research on TARA Labs cables before buying them. I bought them online without listening to them (Not a very smart move) but ended up with some really phenomenal cables. It's been two years now and I still love my nightly listening sessions with TARA labs and jazz." - Phil / GA, USA
